

WHERE THE TRANQUILLITY
OF ZEN MEETS THE FUNCTIONALITY
OF MODERN LIVING

As a premier wholesaler of bathroom and kitchenware since 1999, we believe that every space should be a sanctuary where simplicity and affordability reign. Drawing on the principles of Zen philosophy, our curated collection features timeless designs that bring balance and aesthetic to your home.

At Zenmo, we partner with forward thinking retailers and fill the space of home makers who share our vision of transforming everyday rooms into spaces of mindful beauty with an affordable price tag.

ZENMO

With a collection of kitchen and bathroom essentials designed for modern living, we combine timeless style, dependable quality, and accessible luxury. Our products are inspired by the calm of Zen and the simplicity of contemporary design, creating spaces that feel balanced, beautiful, and built to last.

TIMELESS ELEGANT

Choosing ZENMO tapware is about choosing the ideal options to fit your design passion and your budget. We offer a wide selection of colours and styles. It will make your bathroom timeless elegant. All tapware comply with the Water Efficiency Labelling Scheme (WELS) and Australian manufacturing standards under a watermark licence. We are also transitioning our brass tapware to be constructed with lead free brass before 1st May 2026.

TAPWARE

One finish for each style

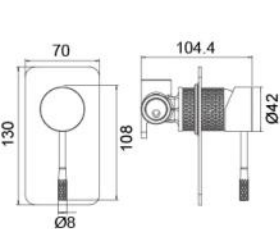

New timeless finishes that add a touch of value to any interior design style.

PROGRESSIVE CARTRIDGE

HOW IT WORKS

To increase water flow and temperature by turning the handle clockwise. Cold water is accessible from 0 to 95°. From 95° onwards, hot water will be mixed in. At 140° rotation, the water has an equal hot/cold mix, and at 192°, the temperature reaches full hot. This operation system is both water and energy saving.

Single Bar Heated Towel Rail

-
- Technical drawing of a vertical rod. The main view shows a rod with a diameter of $\varnothing 20$ at the bottom, a total length of 900, and a section line at the top. A detail view on the right shows a cross-section of the rod with a diameter of $\varnothing 20$ and a length of 100. The detail view also shows a hole with a diameter of $\varnothing 10$ and a distance of 60 from the top edge.

TP 8060X

A diagram of a ladder with two vertical side rails and five horizontal rungs. The rungs are evenly spaced and connect the two side rails.

The figure contains two technical drawings of a rectangular test specimen. The left drawing is a front view showing a rectangular frame with a central horizontal bar. Dimensions include a total width of 630, a central bar width of 22 (labeled $\varnothing 22$), and a total height of 800. The right drawing is a side view showing the profile of the specimen. It has a total width of 90, a central bar width of 25 (labeled $\varnothing 25$), and a total height of 800. The drawings are labeled with dimensions in millimeters.

TP 8060H

A diagram of a ladder with 5 rungs. The rungs are horizontal bars between two vertical side rails. The rungs are numbered 1 to 5 from bottom to top.

Technical drawing of a rectangular frame. The main dimensions are 630 (width) and 800 (height). The frame is composed of four horizontal and four vertical members. The horizontal members are labeled with diameters: 40, 107, 107, 146, 146, 107, 107, and 40. The vertical members are labeled with diameters: 40, 107, 107, 146, 146, 107, 107, and 40. The frame is made of material Ø22. The corner connections are labeled with diameters: 90, Ø32, 100, 80, Ø25, and 122.

TP 9060H

A diagram of a ladder with 6 rungs. The rungs are numbered 1 to 6 from bottom to top. Rung 1 is at the bottom, and rung 6 is at the top. The rungs are horizontal and parallel to each other.

Technical drawings of the test specimen showing front and side views with dimensions. The front view (left) shows a rectangular frame with a total width of 620 mm and a total height of 912 mm. The top and bottom horizontal members are 30 mm thick. The vertical members are 30 mm thick. The spacing between the horizontal members is 119 mm, and the spacing between the vertical members is 19 mm. The side view (right) shows a vertical member with a total height of 100 mm and a total width of 120 mm. The top and bottom horizontal members are 30 mm thick. The vertical member is 9 mm thick. The spacing between the horizontal members is 25 mm.

TP 9060X

Technical drawings of the test specimen showing front and side views with dimensions. The front view (left) shows a rectangular specimen with a total width of 620 mm and a total height of 912 mm. The top and bottom edges are 30 mm thick. The central section has a height of 19 mm. The side view (right) shows a rectangular specimen with a total width of 120 mm and a total height of 912 mm. The top and bottom edges are 30 mm thick. The central section has a height of 100 mm. The side view also shows a 25 mm thick section at the bottom.

WASH BASIN

Basin is one of the most effortless and effective ways to make your bathroom stands out. ZENMO offers many different shapes, colours and materials. If you're looking for a beautiful, luxurious surface for your bathroom basin, artificial stone is the way to go. This material can add elegance and sophistication to any bathroom, especially if you choose a bold patterned design. Both artificial stone and ceramic are durable materials, so they can also be practical.

LONG LASTING QUALITY

ZENMO provides a luxurious collection of designer baths ranging from free standing baths to an insert style. Our range offers timeless design and long lasting quality for those looking for a stunning master piece of a dream bathroom.

BATHTUBS

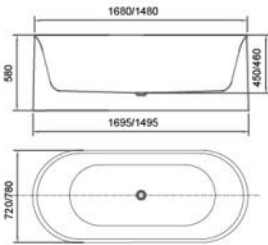

- 1. **Elegant Ribbed Exterior:** The textured, ribbed design adds a touch of sophistication, creating a luxurious centerpiece for any modern bathroom.
 - 2. **Minimalist Shape:** The clean, oval shape of the bathtub fits seamlessly with contemporary interiors, offering a timeless look that enhances the space.
 - 3. **Freestanding Design:** The freestanding structure allows for flexible placement, making it a perfect choice for a variety of bathroom
 - 4. **Versatile Color and Finish:** The neutral white tone complements a range of decor styles, while the ribbed finish adds subtle texture and interest.
 - 5. **Space-Saving Design:** Despite its spacious interior, the compact footprint makes it ideal for smaller bathrooms without compromising comfort.
- This bathtub combines elegance and comfort, making it an attractive option for anyone looking to upgrade their bathroom with a modern, statement-making piece.

EASIER TO CLEAN

ZENMO is home to the finest range of crafted designer toilets. Our modern range of toilet suites include close coupled toilets, wall faced toilets, and in-wall toilets. All toilet suites have quick-release soft closing seats. Many of ZENMO toilet suites feature with rimless flush pan design. It makes your toilet more hygienic and easier to clean. All toilets comply with the Water Efficiency Labelling Scheme (WELS) and Australian manufacturing standards under a watermark licence.

TOILET SUITE

Tornado-X

FLUSH TECHNOLOGY

CLEANER:

TORNADO-X® technology's optimized water pressure and smooth bowl curves flush away bacteria without unhygienic splashing. The bowls are easy to clean as there's no overhanging bottom to collect dirty deposits.

SMARTER:

Technology with elegant, unobtrusive design and tangible benefits functions perfectly, creating a smarter design product.

QUIETER:

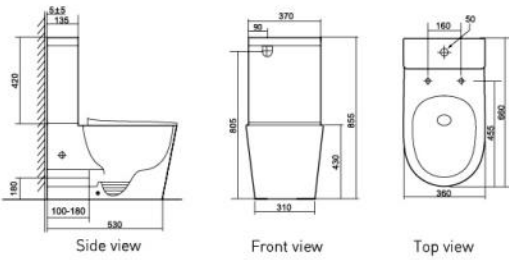

Lab tests on identical toilet bowls, one with TORNADO-X® and one with a traditional flush, demonstrated a 20% noise reduction.

VANITY

MILAN

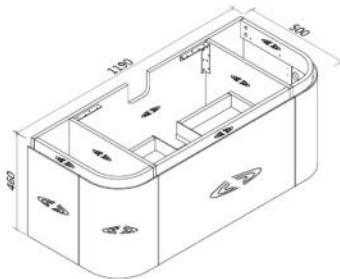

1. Modern Minimalist Design: The sleek, wall-mounted design of this vanity offers a minimalist look that seamlessly blends into any modern bathroom decor.
2. Elegant Wood Finish: The natural wood finish adds warmth to the bathroom space, creating a perfect balance between style and functionality.
3. Compact Yet Spacious Storage: With a compact design, this vanity provides ample storage space to keep your bathroom essentials neatly organized.
4. Integrated Mirror Cabinet: The large, oval mirror doubles as a cabinet, providing hidden storage for personal items while adding a stylish focal point to the bathroom.
5. Contemporary Round Sink: The round vessel sink adds a modern touch, creating a spa-like atmosphere in your bathroom.

This vanity combines aesthetic appeal with practical functionality, making it an ideal choice for modern, stylish bathrooms.
